

R.A.F

Reduce All Fees Party *IT'S TIME FOR A CHANGE!*

- immediate political access to help reduce tuition in BC
- Increased student activities such as formal dances, intramurals etc.
- effort in lobbying for a gym and pub at all Kwantlen campuses
- reduction of textbooks to be sold at market value
- many reps to help you with your needs and concerns

With your help we can make student life much more comfortable

- Lower tuition claims to be able to open a bar for Kwantlen campus's, why hasn't it been done already? The answer, they are lazy with their positions and can't use their power effectively to get it done.
- What kind of change have they made with "lowering tuition"? NONE! We have political power to help us do so, yet our main goal is to allow students to be happy at school through more events, activities and create a social well being. BC has one of the highest rates of suicide of students in Canada. We want to change that.
- The Director of finance has taken virtually a 57% raise in salary, and for what purposes. The money should be going to the students! We guarantee a cut in salary for ourselves just to better the students economically and give you more of what you need. Take action now! Vote R.A.F.
