I was completely misinformed about that. I was told that it was only the members of the specific campus that could vote for that campus' council.

I found that as one of the weirdest things ever....to have a specific campus council position to vote on other campuses. The thing is that students in Surrey should focus only on people who are running in Surrey Campus Council and any other positions that are multi-campus (like we had before). I'd rather have students to vote for their specific positions that they will be dealing with and not others from other campuses.

But yeah, just wanted to give my two cents on this!
