**Subject:** Re: Spending Limits

---

1. spending limit is set out in the regulations (\$500)
2. All candidates are the same... \$500
3. There is no reimbursement
4. I will forward you the minutes to our meeting very soon
5. Multiply each candidates spending limit (\$500) by the number of candidates in a slate and you get the total expenditure for the slate. One candidate may only spend \$10 and another \$600, as long as everything added does not exceed the total allowed for the slate, its ok. The campaign manager can submit a SLATE expense report instead of each individual separately of course.
