

To whomever it may concern,

I am writing in concern to the ballots counted on Saturday. The R.A.F. council was set up in Richmond Wednesday and Thursday campaigning. This is in concern to the holding and counting of the ballots. Two people were walking away with the ballot box Wednesday and when asked where they were going replied "the secret place". This is very unprofessional seeing that they walked away and no one found out where the ballot box was kept Wednesday night. The ballot box went with a boy who was an associate of Kulvir's (Director of Richmond) and handled the ballot boxes' keys. Wednesday around 4PM Kulvir spoke with the table and then left with the ballot station.

I'm asking for a recount because:

- Richmond's ballot box was held with Kulvir's associate who had keys to the ballot box
- Ballots were improperly handed out (some didn't have to give student ID)
- Volunteers for holding the ballot box spoke of rigging the votes at the end of Wednesday's voting day

I'm asking for a recount. I am upset with the arrangements surrounding the voting station and especially with those handing out the ballots.

Sincerely,

Stephanie Little
