Subject : Health and Dental Reports

Good morning Aaron,

Further to our telephone conversation please find the attached breakdown of the health and dental claims. Upon review should you have any questions please don't hesitate to call.

In addition and as discussed Bryan Boechler will be following up with the designated person (once in receipt of your e-mail to him or her) to see if we can be of any further assistance on the opt-out link to the registration site.

Thank you for sharing some of your time with Mark Healey yesterday. I spoke with Mark last evening following his discussions with yourself and JB and it appears a plan, in particular as it relates to Richmond is quickly emerging.

Finally I understand that you have not had a chance to reconcile the health and dental plan fees received from the administration against the preliminary enrolment we issued. Once again we would be pleased to assist you with this as we know you are undergoing a transition in accounting and a timely confirmation of the appropriate level of fee collection continues to be an important factor to the financial strength of the plan and the ability to reduce fees to the students.

Warmest regards,

John
