Aaron,

Please find a signed copy of the agreement between the KSA and G&A.

Aaron we would like to have an opportunity to move forward on the following:

- scheduling of an Executive Workshop on the health and dental services and coverage
- confirmation of the financial status of the plan around reserve , fee collection this past year
- KSA delegates to our Client Advisory Council in late June
- introduction to KSA of some new G&A services scheduled for September 2006
- other annual planning and discussion items for September 2006 that may require preparation during spring and/or summer (i.e. on-line opt-out process)
- a feedback interview with you and conducted by me (can be done over the telephone at your convenience.

Aaron , I look forward to hearing from you at your convenience so that we can work our way through these items.

Finally I have enjoyed the time we worked together this year. I think we both agree that we have put into place improvements to the plan services for KSA members and we look forward to carrying on this legacy with your successors.

John,

I did receive your messages, however, as you mentioned I've been extremely busy with work and school. I also left town on two different occasions, causing us to play some phone tag. E-mail is obviously working better than telephone right now. The AGM went great, we had over 250 members (as required for quorum). Other than that, its business as usual. Brian and John were helpful. It is always beneficial for me to fully understand a situation, especially with different elected officials being involved in the many meetings during the summer. It is my duty to inform our board of important decisions, and when I am fully educated it is easier to prepare reasoning, especially if one is confident in the idea being presented. When I involve myself in anything, it cannot be done half heartily. It simply doesn't reflect positively on me, as I'm sure you are well aware, being in your respective position. That is why I appreciated the swift response of both John and Brian. All else is well.

It would also be helpful if you could send a signed copy of our latest contract for our files. If there are any other concerns please let me know, otherwise I will touch base with you and Brian as soon as possible to discuss the ideas we had for an online opt-out alternative, among other things.

Simple, clear communication on your part is always appreciated John.

Thanks,

Aaron Takhar
